Making Your Website Look the Way You Want with Microthemer

Victor K. Nip

What is Microthemer?

- WordPress Plug-in to style web page elements visually
- Supports over 100 style options, including Google Fonts, gradients, shadow, etc
- Supports responsive design
- Coding optional
- Instant response

Assumptions

- You have experience in using WordPress to design a web site
- You have some understanding of HTML
- You know what CSS is
- You don't expect me to know everything about Microthemer

Why do you need Microthemer?

- Consistency of looks of objects created by different plugins (e.g., fonts, input style)
- Fix visual flaws of themes and plugins
- Style your objects the way you want without learning to code in css

Demo

- Start from scratch: creating and styling card-like objects
  - http://test.viva.ws/cards/
  - Create 4 cards
    - 4 cards per row on PC, 2 cards per row on iPad, 1 card per row on smartphone
  - Modify the look of the cards
- Modify existing theme
  - Change the page title to use proper case (no forced uppercase)
  - Change the color or page title
  - Remove "Back-to-top" button
- Premium feature: creating transition
  - Move card down on hover
